

EPA DECISION

YOU CAN BUY

PRODUCTS CONTAINING 4 LBS. OF BAIT

The following restrictions apply to first-generation anticoagulants or nonanticoagulant rodenticide products intended for agricultural use or for use by professional applicators (pest control operators).

- Bait need not be sold in or with bait stations, but labels must require use of bait stations where children, domesticated animals, or non-target wildlife may be exposed (this is not a new requirement).
- **Products may contain the following active ingredients:** warfarin, diphacinone, chlorophacinone, zinc phosphide, bromethalin, and cholecalciferol.
- Any form of bait is acceptable, including meal, pelleted, or block forms.
- This product may only be used inside and within 50 feet of buildings or inside of transport vehicles (ships, trains, or aircraft).
- *Product may not be sold in packaging that holds less than 4 pounds of bait.*

**We Have
The
Rodent Control Products
That Meet Or Exceed
EPA Regulations**

No. 709PN
Peanut Butter Flavorizer™
Diphacinone 0.005%

No. 709AP
