

RODENT ROCK[®] 2G**BAIT STATION
& MULTIPLE CATCH
TRAP COMBO**

928RPGR-R

**ONE STATION. TWO WAYS TO CONTROL.**

THE ULTIMATE OUTDOOR RODENT CONTROL SOLUTION WITH A
NATURAL ROCK DESIGN THAT BLENDS INTO ANY LANDSCAPE.

Rodent Rock[®] InsertRepeater[™] Insert**To Use the Bait Station Insert**

Place the insert inside the station. Then, insert your control method of choice:

- Helland[™] liquid bait holder
- JAWZ[™] rat snap trap
- Stick-Em[®] glue trap
- Top Gun[™], Bait Block[™], Nectus[™], Bait Block[™] 2G, or Bait Blocks[®] secured by bait rods
- For MICE OR RATS.

**Rodent Rock[®] stations containing rodenticide baits must be weighted or anchored. Follow all local regulations for rodenticide bait placement.*

**To Use the Multiple-Catch Trap Insert**

- Place the insert inside the station with entrance holes aligning. No bait is needed.
- For MICE ONLY.

**Placement**

- For best results, place the Rodent Rock[®] where rodents or signs of rodents have been seen. Place the Rodent Rock[®] along walls, near entry points, or between nests and food/water sources.
- Place the Rodent Rock[®] parallel to the wall, with entrance holes closest to the wall.

**USE IT AS A MULTIPLE-CATCH TRAP OR
AS A TAMPER-RESISTANT BAIT STATION
DEPENDING ON YOUR NEEDS.**
